FLOAT SWITCH:

The automatic switch protects electrically operated pumps and gives full automatic operation.

The switch is made of corrosion resistant and explosion proof materials and is tested till 500.000 on/off This new switch Incorporates a reliable and affordable mechanical snap switch that actuates pump motor at 2" water level. Wire leads do not

flex or hinge with the float as on some competitive models.

Designed for pumps drawing up to 14 Amps at 12 volt DC. Now 2 year of warranty available on this switch, Certificated ISO 8846.
